Full stack web developer

I am a passionate Full-Stack Web Developer and Computer Science Engineering student specializing in the MERN stack and Next.js. I enjoy building scalable backend architectures and crafting interactive, animated user interfaces using tools like GSAP and Framer Motion. I am a continuous learner, always eager to tackle complex technical challenges and turn innovative ideas into functional web applications.

EDUCATION

B.tech in Computer science and engineering

Hittkarini College Of Engineering And Technology • GPA: 7.1

Jabalpur, MP • 11/2022 – 06/2026

PROJECTS

Strango | Real-Time Video & Chat App

Tech Stack: Next.js, socket.io, Framer-Motion, Typescript

- Developed a web application for real-time video calling and chatting, inspired by Omegle.
- Built a scalable backend and crafted a smooth, animated UI using Framer Motion.

Full-Stack Authentication System

Tech Stack: Next.js, MongoDB, JWT/Bcrypt, Next-auth, Typescript

- Engineered a full-stack authentication system using Next.js featuring user login and signup capabilities.
- Created a dynamic profile section allowing users to securely edit their name and personal details.

AI Voice Chat Assistant

Tech Stack: HTML, CSS, JavaScript, Web Speech API

- Developed an interactive AI voice assistant to process spoken queries and deliver real-time audio or text responses.
- Designed a clean, responsive user interface and implemented voice recognition capabilities using JavaScript

SKILLS

Frontend : CSS, Framer Motion, GSAP, HTML, Javascript, Next.js, React.js

Backend : Express.js, Next.js, Node.js

Database : MongoDB, Mongoose

API : JSON API, REST API

Version control : Git, GitHub, Postman, VS code

Programming Language: C++, Javascript, Python, Typescript
